2017 Surveying and Geomatics Educators Society (SaGES)
July 31-August 3, 2017, Corvallis, Oregon
http://2017sages.org/

*The Surveying and Geomatics Educators Society (SaGES) is pleased to invite you to the upcoming 26th Biennial Conference at Oregon State University in Corvallis OR, July 31-August 3, 2017. SaGES promotes the effective teaching and learning of surveying, mapping, geomatics, and other spatially-related education. SaGES is a forum where academia, industry and government work together to exchange ideas, promote common causes, and provide opportunities to improve the teaching and learning of geomatics. (*http://www.geosages.org*). Sages is a great venue for academia and industry to come together to address challenges of geomatics education and how to overcome those to enable the geomatics profession to flourish.*

Conference Events

Multnomah Falls
Columbia River Gorge, Oregon

The conference will host a wide variety of events, helping you to:

➢Engage with other educators through sessions and workshops focused on effective teaching strategies and innovative course content for the rapidly evolving geomatics curricula.

➢Learn about activities underway with various professional organizations vested in geomatics education.

➢See cutting edge research in geomatics in action at peer institutions in a special student poster session and reception.

➢Understand how to integrate advanced technologies, internships, and service learning opportunities into curricula.

➢Discuss strategies to attract the best and brightest students to the geomatics profession.

➢Celebrate success at the awards banquet.

➢Explore the beautiful landscape of Oregon including tall, surreal mountain peaks and roaring waterfalls on the vacation day.

Who should attend: Anyone with interest in Geomatics and Surveying Education!
